Hi.

People, hello. I have got an exercise machine called mini stepper and I exercised a lot and I got healthy. Because I gained weight after I was discharged from the hospital, and I have no shoulder pain or backache anymore.

I think all the blood is flowing smoothly inside my body. What was wrong with me was just a simple lack of exercise... I felt it strongly.

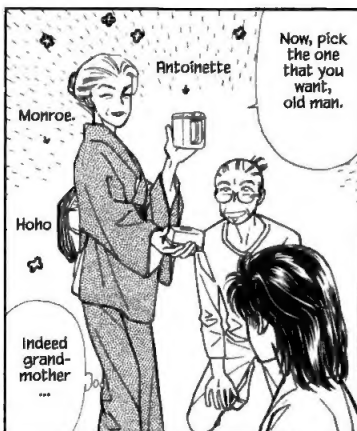

I mention this soup in the manga. It is a soup made of cod's bone and flesh on it. This is Romorri's special meal. Doumoto had a hard time, even when you try to separate the flesh from the bones, the flesh is too much stuck to the bones, so you make soup with it. You put in intestines too. A winter delicacy!

If you get a whole fish luckily, please try it out.

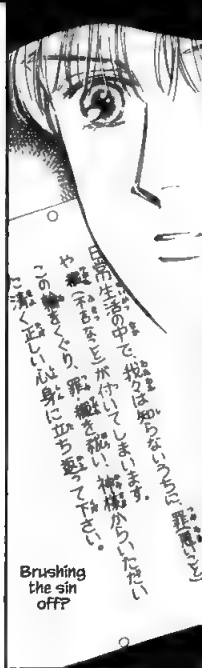

Decided

'Doumoto is sushi'
Romorri's sushi is similar to Hokkaido's sushi, so it has crab or salmon. There are halibut and abalone too... it is good.

日常生活の中で、我々は知らず知らずのうちに、罪を犯しています。それを洗い流すために、神社でこの儀式を行います。この儀式は、心身に立ち廻って下さる。 brushing the sin off?

That is the adult's attitude.

Could you move it over there?

But this place is a road where people pass.

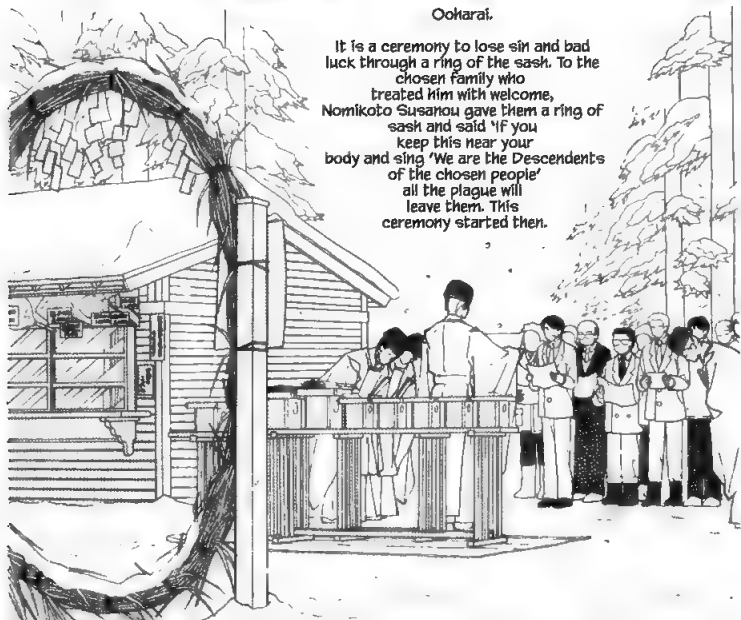

Yes.

Huh?

Ookarai.

It is a ceremony to lose sin and bad luck through a ring of the sash. To the chosen family who treated him with welcome, Nomikoto Susarou gave them a ring of sash and said 'If you keep this near your body and sing 'We are the Descendents of the chosen people' all the plague will leave them. This ceremony started then.

It was a tiring day.

You must gain stamina so you can play for the full game.

There is a strong cold air mass from Siberia, so it will continue like this for some days.

Read page 190.

I have this kind of vibe going on, but I will work harder on the next volume. Additionally, the person in Michael's dream is not Fabian (Long hair who came to Romo! to look for Michael). The who could it be. Now that I am in the last chapter, I don't know how many episodes I will end up drawing... I think there will be one or two volumes for now. Then be healthy until the next book!
